MESSAGE FROM OUR DIRECTOR

CO-CREATING SOLUTIONS, DELIVERING IMPACT

2024 has been about pushing for impactful change and making sure our work reflects the realities happening in our communities. It has been one of growth, resilience, and impactful change, reaffirming our commitment to empowering women, girls, and young entrepreneurs through technology, education, advocacy and entrepreneurship.

“

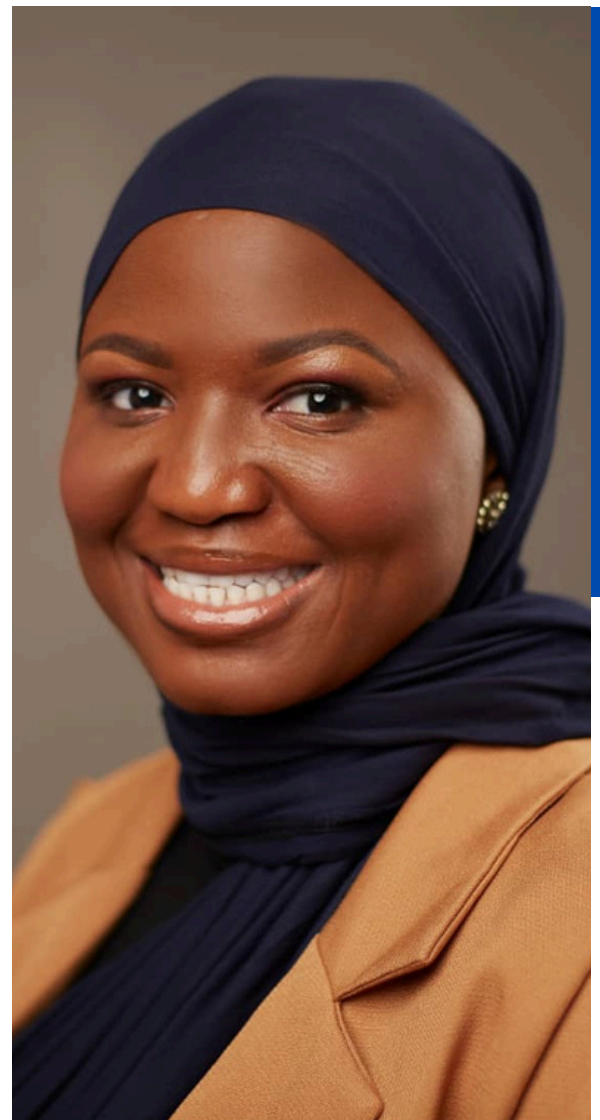

We want to celebrate our collective achievements this year at Paahibu Space, our strategic board, talented team, valued partners and supporters, our dedicated interns, ambassadors and volunteers and everyone who contributed to the growth and influence of what we do at Paahibu Space.

We have made significant strides in greater transparency and in our initiatives such as the TechsiStars Mentorship Program, Women in Digital Business Initiative, Women in Digital Economy Initiative, GROW.

Additionally, we have fostered accountability and transparency by ensuring that our team including volunteers and partners have clear and active responsibilities and expectations, strengthening our team coordination and partnership engagements. These milestones demonstrate the power of our teamwork and commitment to excellence.

This year has been about pushing for impactful change and making sure our work as a tech and entrepreneurship development organization, reflects the realities happening in our communities. In 2024, we worked alongside other partners to navigate key priorities like STEM Education for girls and women, Digital Business Transformation for Female Entrepreneurs, Tech careers and Professional Development, Online Safety for Women and Girls, Women and the Creative Economy, Women and Finance, Equity and Inclusion while ensuring critical process improvements in our programmes.

Despite the challenges, we remained steadfast in our mission, developing local solutions and talents, building skills, and fostering inclusive opportunities. In 2025, we look forward to launching new projects, strengthening partnerships, sustaining our influence, and deepening our engagement with the community. We will continue to work collaboratively with individuals and organizations to build an inclusive and vibrant ecosystem that empowers individuals and communities to increase their agency, voice, resilience, and sustained improvement in the quality of their lives and communities.

Hiqmat Sungdeme Saani
Director

ABOUT PAAHIBU SPACE

Support (Business + Education + Skills + Capacity + Resources)
= High Impact Entrepreneurs and Leaders

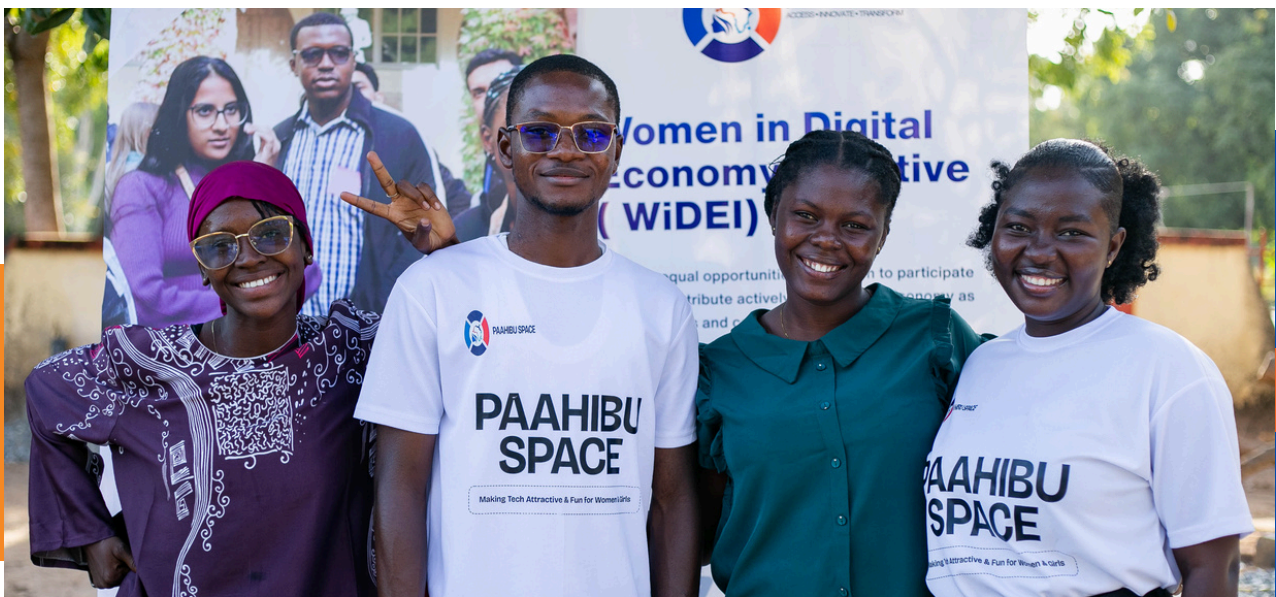

ABOUT US

Paahibu Space is a technology, education, and entrepreneurship development organization designed and committed to providing digital solutions to businesses and non-profits while educating and equipping women-owned businesses and girls with the skills to leverage technology for business and career growth, creating pathways for educational access, leadership and economic independence. As an innovation hub based in Ghana, we empower girls and women in STEM and entrepreneurship to transform local challenges into solutions that contribute to global impact. We build a safe, inclusive, enabling environment for all individuals to gain economic empowerment and educational access. Over the years, Paahibu Space has supported more than **500** women-owned small businesses through business development support, over **1,000** individuals through technology and career development training, and **62** communities in advocacy campaigns, reaching **10,000** girls and women.

WHAT WE DO

We support girls and young women in STEAM leadership, female entrepreneurs and women-owned SMEs by offering capacity-building, education and skill development programs, technology access, and a collaborative community. We equip women-owned businesses and girls with the skills, networks, and resources needed for measurable growth. We offer:

- **Capacity-Building Programs**
- **Access to Technology**
- **A Collaborative Community**
- **Business Development Opportunities**
- **Networking Opportunities**
- **Research, Advocacy & Policy-Influencing**

IMPACT HIGHLIGHTS

This past year, we were driven by a profound understanding that our work goes beyond simply delivering services and/or programmes. It's about making a sustained positive difference in the lives of individuals and communities. We believe in the power of human connection and the transformative potential of meaningful engagement. Our focus has been on building strong relationships, fostering trust, and empowering others to reach their full potential. We believe that by working together, we can achieve extraordinary things. We are grateful for the dedication of our team, the unwavering support of our partners, and the resilience of the communities we work with and for.

ALUMNAE SPOTLIGHT

ADENIKE OWOEYE
Backend Developer

“

My journey as a **Backend Developer** at **ReCreax** started the day I joined the **TechsiStars Mentorship Program** at Paahibu Space. I was truly blessed with an incredible **mentor** whose **guidance, experience, and encouragement** made all the difference. Without her, I wouldn't be where I am today. The weekly talk series during the program opened up a new world for me, developing essential **soft skills** like communication, personal branding, and building meaningful connections. It wasn't just about coding, it was about becoming a well-rounded professional. I am forever grateful to Paahibu Space for believing in my potential and giving me the **confidence** to **believe** in myself.

FAUZIA KATALI
UX Research Intern

“

I've always wanted to be in the tech space, but as a Political Science student at the University of Ghana, I **didn't know where to begin**. Tech felt so far from what I was studying. Everything changed when a friend introduced me to Paahibu Space and the **TechsiStars Mentorship Program**. Even though I joined the program late, I was paired with a mentor whose **experience, patience, and network** in UI/UX Design made the learning process smooth and inspiring. From knowing nothing about design to confidently navigating Figma and creating designs, it's been a truly exciting journey. I never thought I could learn these skills, especially coming from a **non-tech background**. The mentorship gave me not just **technical skills** but also the **confidence** to believe I belong in this space. Now, I'm building on what I learned as a **UX Research Intern** at Paahibu Space, and I'm excited to keep growing in the tech field. Paahibu Space didn't just give me an opportunity, it gave me a whole **new path** I never thought was possible.

ALUMNAE SPOTLIGHT

JULIE RADOL
Tech Law & Litigation Intern

“

As a legal consultant passionate about online safety, the TechsiStars Mentorship Program by Paahibu Space came at the perfect time. I was paired with a certified cybersecurity professional who also shares relevant content on online safety on her socials, and our connection made the learning journey easy and impactful. The mental health sessions stood out, helping me find solidarity along the way. Today, I'm fully practicing Tech Law and deepening my advocacy for safe online spaces, especially for women and girls. The Paahibu Space TechsiStars Mentorship Program truly supports every path, be it advocacy, entrepreneurship, career or personal growth.

Connect with her: [Julie Radol](#)

POULA ANEK
Data Entry Intern

“

As someone passionate about **gender justice**, I've always advocated for women and girls in marginalized communities. But despite my work, I felt **left behind** in digital spaces. Every time I found myself in rooms where others discussed tech, I **felt intimidated** because I **lacked those skills**.

Joining the **TechsiStars Mentorship Program** changed everything. In just **four months**, I gained practical **skills** like effective **writing** and **communication**, **creating impactful handbooks**, and **mastering tools like Microsoft Excel and PowerPoint** for engaging presentations. I also learned how to use **social media to promote my crocheting business**, which I'm so proud of. The biggest win for me was right after the program, my **mentor supported** me in landing a 6-month **remote data entry** contract, something I never thought I could achieve before. I'm now a more **confident, tech-savvy** advocate who's ready to drive real change. To any girl out there wondering if tech is for her, Paahibu Space has the right opportunities waiting for you. It's truly been a life-changing experience for me.

ALUMNAE SPOTLIGHT

HABIBA MUHAMMED
Founder, HAMS Designs

“

Hi, I'm a 17 year old from Nigeria. I've always loved writing poems, short stories, and motivational speeches, but I never thought I could **turn my creativity into a business**. Everything changed when I came across Paahibu Space on social media. I joined their tech community and later applied for the TechsiStars Mentorship Program. That's where my journey truly began. My mentor helped me see how my creative writing could become content creation. I'll never forget the excitement I felt when I learned how to use LinkedIn and shared my first spoken word poem video. My mentor also introduced me to graphic design and connected me with other creatives. In just four months, I went from knowing nothing about entrepreneurship to running my own business, HAMS Designs, where I create graphic content for clients.

Today, I've completed high school and I'm proudly running my business. Paahibu Space continues to provide me the skills, confidence to dream bigger and the tools to build something of my own. Now, I'm exploring even more opportunities in entrepreneurship.

RUBY YEBOAH
Data Security Analyst

“

Before joining the **TechsiStars Mentorship Program**, I thought that being in tech was all about sitting behind my laptop and coding. But this program completely changed my perspective.

I discovered that soft skills like **public speaking** and **networking** are just as essential to thrive in the tech industry. The mentorship also helped me realize how I could leverage my network to create opportunities for myself.

The journey was truly eye-opening, and today, I'm proud to be **working remotely** from Ghana as an **intern with a Kenyan-based tech company**. Thanks to Paahibu Space, I now see tech as a space where my voice, connections, and skills are all important.

ALUMNAE SPOTLIGHT

HAJERI SEIDU
Health Tech Enthusiat

“

As a student at a College of Health in Ghana, I never knew that technology and health could intersect, until I joined the TechsiStars Mentorship Program.

Initially, I was drawn to graphic design, but through the mentorship, I **discovered a deep interest in health tech**. Now, I'm learning more about how technology can address healthcare challenges, especially those affecting women.

My **mentor** has been incredibly **supportive**, guiding me as I gain skills in **health research**. Thanks to Paahibu Space, I now see a future where I can combine my passion for healthcare with technology to make a real impact.

“

Honestly, when I joined the **TechsiStars Mentorship Program**, I had **no clear goal** in mind. But the program's **holistic approach** helped me discover a strong interest in **data analytics**. I was later paired with a **mentor** who is an **AI Natural Language and Data Analytics expert**, and that made all the difference.

The **four-month** journey was truly rewarding, I didn't just learn about technology, I learned how to **carve a niche for myself**. Now, I'm **building on my data analytics skills** from the program because I'm determined to become a **social media content analyst**.

Thanks to **Paahibu Space**, I found a **path** I didn't even know I was looking for

PROGRESS OF WOMEN IN DIGITAL ECONOMY INITIATIVE-WIDEI

Understanding the Digital Landscape

According to World Bank, while Africa's women entrepreneurs and MSMEs contribute immensely to the economies of the continent, many MSMEs especially those led by women in the informal sector struggle to formalise their businesses, access funding, compete and scale their operations due to lack of technology access, inadequate digital literacy programs, supportive networks and inadequate access to information. This gap is where Paahibu Space plays a pivotal role by delivering targeted, hands-on training and coaching to help these entrepreneurs sharpen their strategies, strengthen their business operations and prepare for expansion in a digitally-evolving world. Paahibu Space focused on refining key aspects of these entrepreneurs' business journeys. Tailored capacity-building sessions have been designed to help them: • Improve their business strategies • Enhance financial management • Develop operational plans suited to the unique needs of Africa's MSMEs ecosystem This year, Paahibu Space has supported several small businesses, including **Shеды Enterprise**, a Ghanaian beauty brand celebrating African heritage through refining shea butter into beauty products such as body lotion, shower gel etcs, and **Divine Apparel**, a fashion brand that specializes in quality men's wears. Both businesses are focusing on key milestones in 2025, including:

- Accelerated business growth • Expanded networks and partnerships • Launching innovative products and services

Entrepreneurs in the informal sector drive innovation and can build sustainable pathways to success through targeted business development support from trainings and mentors. If you have a small business, follow Paahibu Space to learn more about upcoming programs that may include access to resources, including business advisory and funding.

MSME SPOTLIGHT

Sherifa Fuseini
CEO

"Before joining the WiDEI & WiDiB trainings by Paahibu Space, managing Sheady Enterprise was challenging. My business focuses on refining **Shea butter** into amazing products like **body butters**, **hair oils**, and other **organic products**. The training completely transformed how I run my business. I learned to **manage operations efficiently** using **digital tools** and even started **designing my own business flyers**, saving costs I used to spend on hiring designers. Since then, I've **acquired new customers** and significantly **improved my business branding, marketing, and operations**. Thanks to **Paahibu Space** and the **WiDEI & WiDiB Initiative**, **Sheady Enterprise** is now thriving and reaching more people than ever before."

Shop here: [Sheady Enterprise](#)

Vivian Ackon
CEO

DIVINE APPAREL

"**Divine Apparel** specializes in quality men's wears. It was borne during my participation in the **WiDiB & WiDEI** programs. The training **helped me to create** a business plan that **guides our operations**. With **Paahibu Space's support**, we **branded**, including a new logo, and **gained digital marketing, storytelling, branding and customer engagement skills** which have helped transformed how we connect with clients. **We've** since **enhanced** our **online presence** and now offer personalized engravings on items like belts, watches, and wallets, adding a special touch for our customers."

ADVOCACY

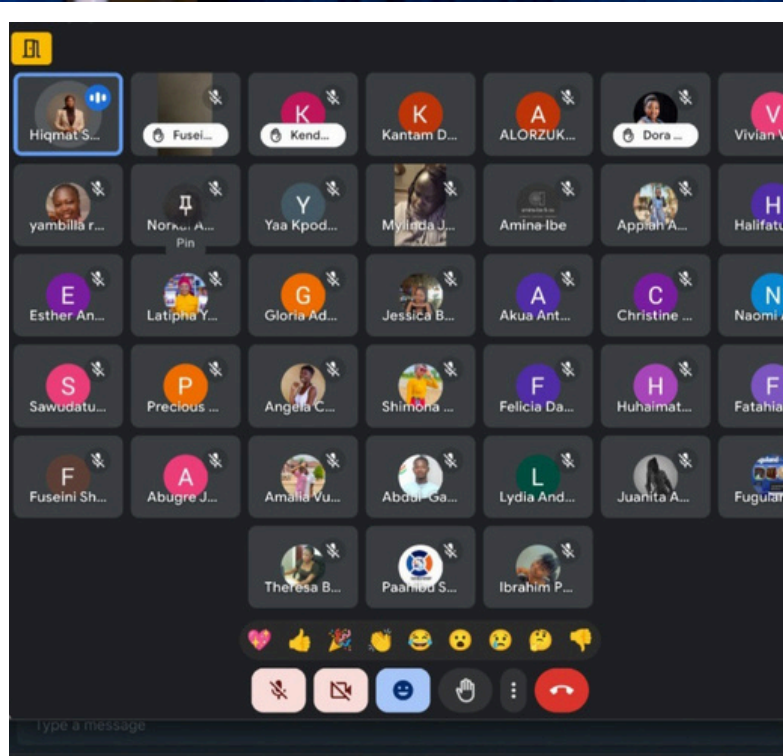

689 STUDENTS

In 2024, Paahibu Space's advocacy work went beyond conversations, transforming ideas into actions that empower women and girls to thrive in digital, creative, and green economies.

Our online safety initiatives addressed the growing threats faced by women in digital spaces. Through community-driven projects and strategic partnerships, we created safe online ecosystems where over 5,000 women and girls learned how to navigate and protect themselves from digital risks. From digital literacy workshops to cybersecurity mentorship, these efforts are ensuring that the next generation of women leaders can engage with technology confidently and securely.

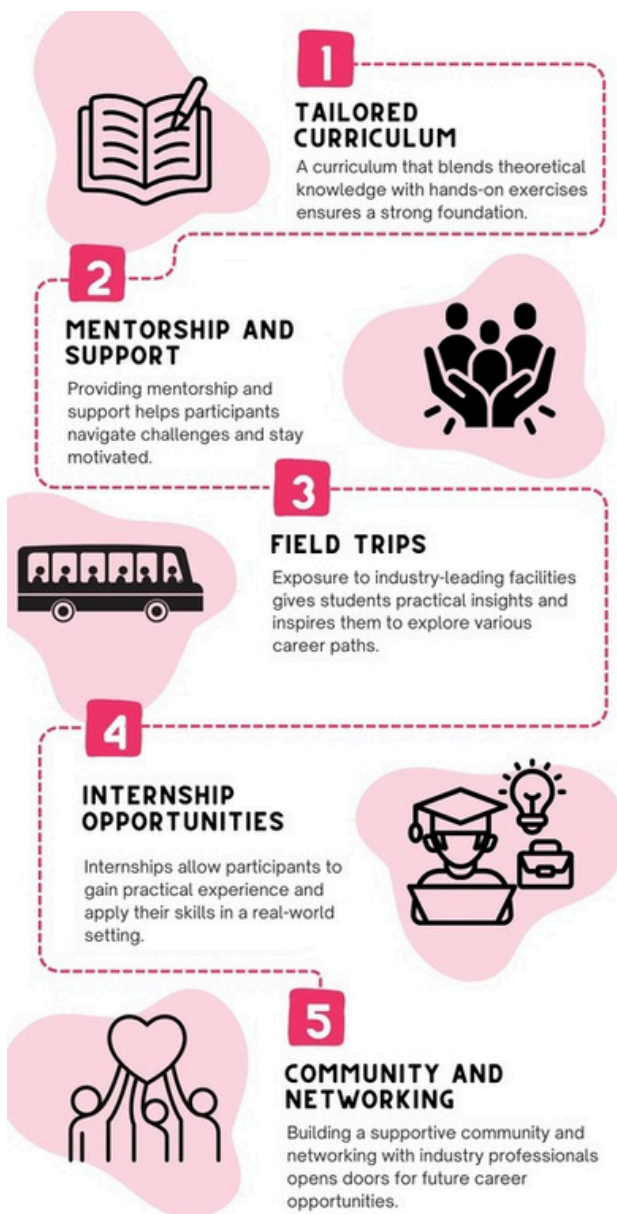

The Paahipogba Campaign, launched on International Women's Day 2024, redefined what leadership in technology looks like. By spotlighting groundbreaking women-led tech companies and innovations disrupting industries, we not only celebrated achievements but also inspired young women to break barriers. These stories of women revolutionizing business and organizational practices continue to fuel the aspirations of many who now see themselves as part of the tech revolution.

With climate change disproportionately affecting women, Paahibu Space introduced the Green Activism Program, merging art, advocacy, and environmental sustainability. This program empowered women and girls to identify environmental issues in their communities and use creative expressions, digital illustrations, storytelling, and visual art, to propose solutions. Beyond advocacy, Green Activism unlocked pathways into the creative and digital economies, turning environmental action into sustainable economic opportunities. Each of these initiatives reflects Paahibu Space's belief that advocacy is most powerful when it drives transformation. From safeguarding digital spaces to redefining leadership in tech and turning climate challenges into creative opportunities, Paahibu Space remains at the forefront of shaping inclusive, resilient communities.

HOW MENTORSHIP BRIDGES SKILLS GAPS

Insights From the TECHSISTARS MENTORSHIP Program

Breaking into the tech industry can be **challenging**, especially for women in Ghana, who **face unique barriers** to entry. However, the right **opportunities** and **support** can **transform** these **challenges** into **stepping stones**. The "TECHSISTARS MENTORSHIP" program is doing just that — giving young women the **skills, support** and **networks** to **thrive** in the tech Industry.

Traditional education and skills training alone may not be enough to keep up in a world where technology is fast evolving.

The "TECHSISTARS MENTORSHIP" Program is a curriculum beyond textbooks and existing mentorship programs. Participants learn theories beyond web development, data analytics, software development, social media management, and graphic design. They apply these lessons in hands-on projects that mirror real-world challenges. After 4 months of intensive training, soft skills building sessions and mentoring relationships, participants enter a three-month internship (for those interested in career opportunities) and apprenticeship (those who want to set up businesses) in tech environments. This combination of learning and practical experience helps solidify their skills, build confidence, and prepare them for the demands of the industry.

Stay tuned for updates, upcoming registrations and more tech and entrepreneurship opportunities.

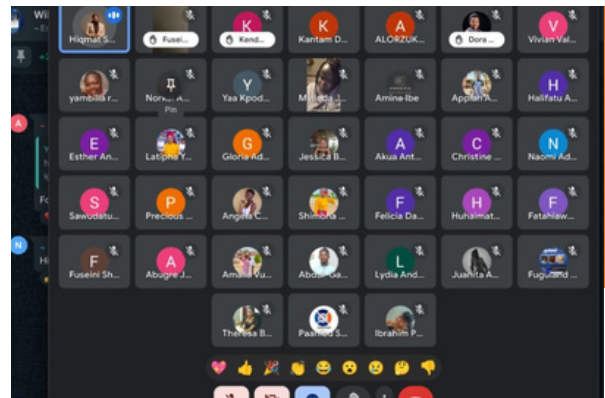

SPOTLIGHT PROGRAMS

TechsiStars Mentorship

This program designed with through a co-creation process with over 120 girls and young women interested in tech and entrepreneurship, and supported **30** women with hands-on, intensive learning and mentorship experience that focused on technical and soft skills development in computer and digital literacy, networking, leadership and entrepreneurship development.

WiDiB Initiative

This 5-week virtual program is designed to structure women-owned MSMEs, social impact initiatives and female freelancers in Africa's business and entrepreneurial sector. It provides small businesses, social impact initiatives and freelancers with knowledge and skills on how to leverage digital tools and support services to address challenges in operations, product/service development, career advancement and team structuring. This year, the program supported **150** entrepreneurs and freelancers from Ghana.

Women in Digital Economy Initiative - WiDEI

WiDEI empowers small businesses and community-led development initiatives owned by rural and marginalized women to build and scale sustainable ventures by enhancing operations, accessing financial resources and knowledge, digital tools and a nurturing inclusive network, creating opportunities for women to participate and contribute actively to the digital economy as equal creators and consumers of technology.

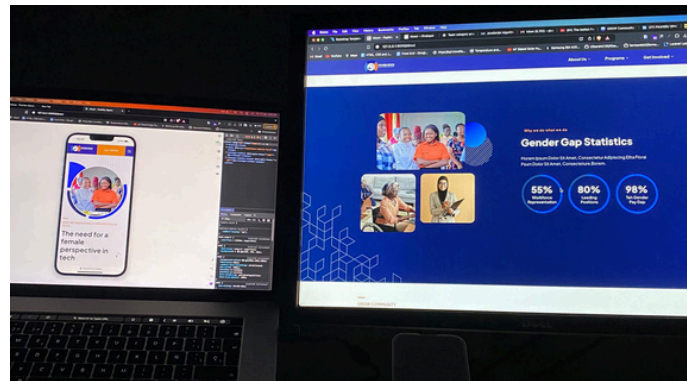

SERVICES

» Digital Solutions & Business Consulting

We provide top-notch digital and software solutions to MSMEs businesses in the informal sector and non-profits to streamline their operations, increase their visibility and boost their growth. We also provide pitch deck preparation, business model canvas development, business development consultations, micro-credit services and strategy development. MSMEs **gain access to experienced mentors and advisory services** to guide their growth and success.

» TRAINING AND CAPACITY BUILDING

We offer a variety of **skill development programs, workshops, and seminars** designed to assist entrepreneurs and organisations with the knowledge and tools needed to succeed. The training focuses on strengthening skills, fostering innovation, and building leadership capacity to drive sustainable growth. We help entrepreneurs and organisations address various business challenges and promote professional growth.

» Research, Policy, and Innovation

At Paahibu Space, we understand the importance of evidence-based programming, policy-influencing and innovation. We therefore offer stakeholders and governments the following services:

- Research on Online Safety & Digital Inclusion
- Offering recommendations to governments and stakeholders on enhancing digital transformation
- Spaces where young people can explore innovative solutions to community challenges using technology.
